1. INTRODUCTION

1.1 Purpose

This Sources Sought Notice is issued solely for **information and planning purposes** under FAR 10.002 market research procedures (FAR 10.002, 2024). It does not constitute a Request for Proposal (RFP) or a promise to issue an RFP in the future. The Government is seeking information about potential sources and their capabilities to satisfy the requirement described herein.

This is NOT a solicitation for proposals, and no contract will be awarded based on responses to this notice. The Government will not pay for any information or administrative costs incurred in response to this Sources Sought Notice per FAR 5.205 (FAR 5.205, 2024).

1.2 Background

The U.S. Army PEO Combat Support & Combat Service Support (Project Information, 2026) requires development and implementation of the Advanced Logistics Management System (ALMS) to support 2,800 users across 15 Army installations (Project Information, 2026). The system must achieve Initial Operational Capability (IOC) by June 2026 and Full Operational Capability (FOC) by December 2026 (Project Information, 2026).

1.3 Market Research Objectives

The Government is conducting market research to:

- Determine whether adequate competition exists among qualified contractors
- Assess industry capabilities for cloud-based logistics management systems
- Evaluate small business participation potential (Market Research Data, 2026)
- Refine technical requirements and acquisition strategy
- Identify appropriate contract type and performance standards

2. REQUIREMENT OVERVIEW

2.1 Program Description

Program Name: Advanced Logistics Management System (ALMS) (Project Information, 2026)

Description: Cloud-based logistics management system development and implementation supporting Army supply chain operations across CONUS installations (Project Information, 2026)

2.2 Scope of Work

Development, implementation, and sustainment of a cloud-based logistics management system to serve 2,800 concurrent users across 15 Army installations (Project Information, 2026). Primary place of performance is Fort Lee, VA with additional work at CONUS installations (Project Information, 2026).

2.3 Key Requirements Summary

Cloud Infrastructure and Security Compliance

- Must possess active FedRAMP Moderate authorization or demonstrate ability to achieve authorization within 6 months of contract award
- Proven capability to deliver 99.5% system availability during duty hours (0600-1800 Local, Mon-Fri) with Mean Time to Recovery (MTTR) ≤ 2 hours
- Experience hosting mission-critical applications supporting 2,800+ concurrent users with scalability to 5,000 users (Project Information, 2026)

Enterprise Systems Integration Experience

- Demonstrated experience integrating with SAP S/4HANA ERP systems and Defense Logistics Agency (DLA) systems
- API development and data synchronization capabilities
- Experience with Army enterprise systems and protocols

2.4 Performance Period

Anticipated Period of Performance: 36 months consisting of 12-month base period plus two 12-month option periods (Project Information, 2026)

2.5 Estimated Contract Value

Estimated Value: \$2,500,000 (Project Information, 2026) **Total Lifecycle Cost:** \$6,425,000 (Project Information, 2026)

Note: This is an estimate only and does not commit the Government to any specific funding level per FAR 15.404-1 (FAR 15.404-1, 2024).
