

REQUEST FOR INFORMATION (RFI)

RFI Number: RFI-20251218-ADV **Program:** Advanced Logistics Management System (ALMS) **Issue Date:** December 18, 2025 **Response Deadline:** January 22, 2026 at 2:00 PM EST **Classification:** UNCLASSIFIED

SECTION 1: GENERAL INFORMATION

1.1 Issuing Organization

Agency: United States Army **Office:** U.S. Army Contracting Command - Rock Island (Ground Truth - Project Information, 2025) **Address:** Rock Island Arsenal, Rock Island, IL 61299

1.2 Point of Contact

Name: MAJ Sarah Johnson (Ground Truth - Project Information, 2025) **Title:** Contracting Officer **Email:** sarah.m.johnson.mil@army.mil (Ground Truth - Project Information, 2025) **Phone:** 309-782-5000 (Ground Truth - Project Information, 2025)

1.3 Questions Deadline

Submit Questions By: January 02, 2026 at 2:00 PM EST **Responses Posted By:** January 07, 2026

SECTION 2: PURPOSE AND BACKGROUND

2.1 Purpose of RFI

This Request for Information (RFI) is issued to gather detailed technical and cost information from industry to support acquisition planning for the Advanced Logistics Management System (ALMS) (Ground Truth - Project Information, 2025).

This is an RFI ONLY. This is NOT a Request for Proposal (RFP), Request for Quote (RFQ), or solicitation. No contract will be awarded based on responses to this RFI. The Government is not obligated to issue a solicitation based on responses received.

2.2 RFI Objectives

The Government seeks to understand industry capabilities for developing and implementing a cloud-based logistics management system to support 2,800 users across 15 Army installations (Ground Truth - Project Information, 2025).

2.3 Background

The Advanced Logistics Management System (ALMS) is managed by PEO Combat Support & Combat Service Support (Ground Truth - Project Information, 2025) and classified as an ACAT III program (Ground Truth - Project Information, 2025).

2.4 Current Environment

The system will be deployed at Fort Lee, VA and CONUS installations (Ground Truth - Project Information, 2025) to support Army logistics operations.

2.5 Capability Gap

The Army requires modernized logistics management capabilities to achieve Initial Operational Capability (IOC) by June 2026 and Full Operational Capability (FOC) by December 2026 (Ground Truth - Project Information, 2025).

SECTION 3: REQUIREMENT OVERVIEW

3.1 Program Description

Cloud-based system development and deployment for logistics management (Ground Truth - Project Information, 2025)

3.2 Scope and Objectives

The system must support 2,800 users across 15 Army installations (Ground Truth - Project Information, 2025) with enterprise-level logistics management capabilities.

3.3 Key Performance Requirements

System must achieve IOC by June 2026 and FOC by December 2026 (Ground Truth - Project Information, 2025).

3.4 Period of Performance

Anticipated Period: 36 months consisting of 12-month base period plus two 12-month option periods (Ground Truth - Project Information, 2025)

Key Milestones:

- IOC: June 2026 (Ground Truth - Project Information, 2025)
- FOC: December 2026 (Ground Truth - Project Information, 2025)

3.5 Estimated Funding

Contract Value: \$2,500,000 (Ground Truth - Project Information, 2025) **Total Lifecycle Cost:** \$6,425,000 (Ground Truth - Project Information, 2025)

Note: This estimate is preliminary and subject to change based on requirements refinement and budgetary constraints.

SECTION 4: TECHNICAL REQUIREMENTS

4.1 Functional Requirements

The system must provide cloud-based system development and deployment capabilities (Ground Truth - Project Information, 2025).

4.2 Performance Requirements

System must support 2,800 concurrent users across 15 Army installations (Ground Truth - Project Information, 2025).

4.3 Interface Requirements

Enterprise system integration capabilities required (Ground Truth - Project Information, 2025).

4.4 Security Requirements

Cybersecurity implementation and compliance capabilities required (Ground Truth - Project Information, 2025).

4.5 Compliance Requirements

System must meet all applicable DoD cybersecurity standards and Army installation requirements for deployment at Fort Lee, VA and CONUS installations (Ground Truth - Project Information, 2025).

SECTION 5: TECHNICAL QUESTIONS

5.1 Architecture and Design

Question: Describe your approach to cloud-based system architecture for supporting 2,800 users across 15 Army installations (Ground Truth - Project Information, 2025).

5.2 Technical Approach

Question: How will you implement enterprise system integration capabilities (Ground Truth - Project Information, 2025) for Army logistics operations?

5.3 Development Methodology

Question: What software development methodology do you propose (Agile, DevOps, etc.)?

Question: How will you manage version control and code quality?

Question: Describe your continuous integration/continuous deployment (CI/CD) approach.

Question: What development tools and environments do you use?

5.4 Technology Stack

Question: What technology stack do you recommend for cloud-based logistics management supporting 2,800 concurrent users (Ground Truth - Project Information, 2025)?

5.5 Integration Approach

Question: Describe your enterprise system integration methodology and experience with Army systems.

5.6 Cybersecurity

Question: How will you implement cybersecurity implementation and compliance capabilities (Ground Truth - Project Information, 2025) to meet NIST 800-171 requirements?

Question: Describe your approach to vulnerability management and patching.

Question: What encryption methods will you use for data at rest and in transit?

Question: How will you implement identity and access management (IAM)?

Question: Describe your incident response and monitoring capabilities.

5.7 Testing and Quality Assurance

Question: Describe your testing approach for systems supporting 2,800 concurrent users across 15 distributed installations (Ground Truth - Project Information, 2025).

5.8 Performance and Scalability

Question: How will you ensure system performance for 2,800 users across 15 Army installations (Ground Truth - Project Information, 2025)?

SECTION 6: MANAGEMENT APPROACH QUESTIONS

6.1 Project Management

Question: Describe your project management approach and methodology for the 36-month performance period (Ground Truth - Project Information, 2025).

Question: How will you track progress and manage schedule/cost/performance?

Question: What collaboration tools will you use with the Government team?

Question: How will you manage risks and issues?

6.2 Team Organization

Question: Describe your proposed team structure for the 36-month performance period (Ground Truth - Project Information, 2025).

6.3 Risk Management

Question: How will you manage risks associated with achieving IOC by June 2026 and FOC by December 2026 (Ground Truth - Project Information, 2025)?

6.4 Quality Management

Question: Describe your quality management approach for user interface/user experience design and technical documentation and training (Ground Truth - Project Information, 2025).

6.5 Configuration Management

Question: How will you manage data migration and management (Ground Truth - Project Information, 2025) and system configuration across 15 Army installations (Ground Truth - Project Information, 2025)?

6.6 Transition Planning

Question: Describe your approach to transitioning the system to operational status at Fort Lee, VA and CONUS installations (Ground Truth - Project Information, 2025).

SECTION 7: PAST PERFORMANCE AND EXPERIENCE

7.1 Company Information

Please provide:

- Company name, address, DUNS/UEI
- Years in business
- SAM.gov registration status and expiration date
- Business size and socioeconomic status
- Relevant NAICS codes (primary: 541512) (Ground Truth - Project Information, 2025)
- Annual revenue (last 3 years)

- Number of employees

7.2 Relevant Experience

Provide experience with cloud-based system development and deployment, enterprise system integration, cybersecurity implementation and compliance, user interface/user experience design, data migration and management, and technical documentation and training (Ground Truth - Project Information, 2025).

7.3 Past Performance References

Provide 3-5 references for similar projects completed within the last 5 years.

For each reference, include:

Field	Information
Customer Name	
Contract Number	
Point of Contact	Name, Title, Phone, Email
Contract Value	
Period of Performance	Start and End Dates
Project Description	Brief description of work performed
Relevance	How it relates to this requirement
Performance	Any awards, issues, or lessons learned

7.4 Key Personnel

Provide key personnel qualifications for cloud-based system development and deployment, enterprise system integration, and cybersecurity implementation and compliance (Ground Truth - Project Information, 2025).

7.5 Facilities and Equipment

Describe facilities and equipment available to support development and deployment at Fort Lee, VA and CONUS installations (Ground Truth - Project Information, 2025).

SECTION 8: COST INFORMATION

8.1 Cost Estimate Assumptions

For rough order of magnitude (ROM) cost estimates, assume 36-month performance period with 2,800 users across 15 Army installations (Ground Truth - Project Information, 2025).

8.2 Cost Questions

Question: Provide ROM estimate for \$2,500,000 contract value requirement (Ground Truth - Project Information, 2025).

8.3 Cost Breakdown Request

Please provide a high-level ROM cost estimate broken down by:

Cost Category	Base Year	Option Year 1	Option Year 2	Total
Labor				
Materials/Equipment				
Software Licenses				
Travel				
Other Direct Costs				
TOTAL				

8.4 Pricing Model

Question: What pricing model do you recommend for the anticipated Firm Fixed Price contract structure (Ground Truth - Project Information, 2025)?

8.5 Cost Drivers

Question: What are the primary cost drivers for supporting 2,800 users across 15 Army installations (Ground Truth - Project Information, 2025)?

SECTION 9: ACQUISITION APPROACH QUESTIONS

9.1 Contract Type

The anticipated contract type is Firm Fixed Price (Ground Truth - Project Information, 2025).

9.2 Contract Structure

The contract will consist of a 12-month base period plus two 12-month option periods (Ground Truth - Project Information, 2025).

9.3 Performance Incentives

Question: What performance incentives would you recommend for achieving IOC by June 2026 and FOC by December 2026 (Ground Truth - Project Information, 2025)?

9.4 Data Rights and Intellectual Property

Question: Describe your approach to data rights and intellectual property for Government-owned systems.

9.5 Small Business Participation

This requirement is anticipated as a Small Business Set-Aside (Ground Truth - Project Information, 2025).

SECTION 10: CAPABILITY MATRICES

10.1 Technical Capability Matrix

Please complete the following matrix indicating your capability level:

Requirement Area	High	Medium	Low	None	Comments
Cloud-based system development and deployment	■	■	■	■	
Enterprise system integration	■	■	■	■	
Cybersecurity implementation and compliance	■	■	■	■	
User interface/user experience design	■	■	■	■	

Requirement Area	High	Medium	Low	None	Comments
Data migration and management	■	■	■	■	
Technical documentation and training	■	■	■	■	
Performance and Scalability	■	■	■	■	
Testing and Quality Assurance	■	■	■	■	

Legend:

- **High:** Extensive experience and proven capability
- **Medium:** Moderate experience and capability with minimal development needed
- **Low:** Limited experience, significant development needed
- **None:** No current capability

10.2 Compliance Matrix

Indicate compliance with key requirements:

Requirement	Compliant	Partially Compliant	Non-Compliant	Comments
NIST 800-171 Compliance	■	■	■	
Section 508 Accessibility	■	■	■	
FedRAMP Authorization	■	■	■	
CMMC Level 2 Certification	■	■	■	
Cloud-based deployment capability	■	■	■	
24/7 operations and maintenance	■	■	■	

Requirement	Compliant	Partially Compliant	Non-Compliant	Comments
Continuous monitoring capability	■	■	■	
Data backup and recovery	■	■	■	

SECTION 11: INNOVATION AND ALTERNATIVES

11.1 Alternative Solutions

Question: What alternative approaches do you recommend for achieving IOC by June 2026 and FOC by December 2026 (Ground Truth - Project Information, 2025)?

11.2 Innovation Opportunities

Question: What innovative technologies could enhance logistics management for 2,800 users across 15 Army installations (Ground Truth - Project Information, 2025)?

11.3 Technology Maturity

Question: What is the technology readiness level of your proposed solution?

11.4 Best Practices

Question: What industry best practices do you recommend for cloud-based logistics management systems?

SECTION 12: SCHEDULE AND FEASIBILITY

12.1 Schedule Feasibility

Question: Is the 36-month performance period feasible for achieving IOC by June 2026 and FOC by December 2026 (Ground Truth - Project Information, 2025)?

12.2 Critical Path Items

Question: What are the critical path items for meeting the IOC and FOC milestones (Ground Truth - Project Information, 2025)?

12.3 Dependencies and Constraints

Question: What dependencies and constraints affect deployment at Fort Lee, VA and CONUS installations (Ground Truth - Project Information, 2025)?

12.4 Risk Assessment

Question: What risks could impact achieving the \$2,500,000 contract value and 36-month timeline (Ground Truth - Project Information, 2025)?

SECTION 13: TEAMING AND PARTNERSHIPS

13.1 Teaming Approach

Question: Do you plan to pursue this as prime contractor or subcontractor for the Small Business Set-Aside requirement (Ground Truth - Project Information, 2025)?

13.2 Subcontracting Strategy

Question: What subcontracting strategy do you propose for the anticipated Small Business Set-Aside (Ground Truth - Project Information, 2025)?

13.3 Small Business Participation

This requirement is anticipated as a Small Business Set-Aside under NAICS code 541512 (Ground Truth - Project Information, 2025).

13.4 Partner Capabilities

Question: What partner capabilities would complement
